The delegates who arrived Friday evening where entertained at the Host Club's Club Rooms, and very nice, large, welldecorated club rooms they are. We saw some of the members trap shooting by flood light and that is not a common sight. The business sessions where well attended, with the chairman J.J. Girling doing another fine job. Ald Monroe of Windsor welcomed the delegates on behalf of the City, and Bryce McDonald for the Host Club. The reports of the officers and committee chairmen will be posted at our assn. club rooms. After dinner at the annual banquet the speaker was Mr. MacMinell of the Ont. Water Resources Board. He gave a very heartening and enlighting talk about water, sewage, and pollution. It seems that it will take time but our streams and rivers will be cleared up, and the people of Ont. will have good and sufficient water.

The next stag Social will be held Oct. 17. There was a good turnout to the last one, and Reg. Bone says he will have more pickles, crackers, cheese, etc. at this one. So come out and meet the boys and enjoy yourself.

The September euchre was a big success, thirteen tables. Door Prize was won by Mrs. Curly Arscott, and Bill Leigh. Other winners were as follows:

High Score-----Mrs. Reg. Bone, and W. O. Sanhy

Lone Hand-----Mrs. B. Hodgins, and Stan Richardson

Next euchre October 24th. Come on out and have a nice game with a bunch of good sports.

The Conservation committee wishes to announce that they are clearing more land to plant more trees and shrubs. They are also building more brush piles in the Small Game and Bird Sanctuary. They would like members with sharp axes to help with this work on any Sunday morning.

God has lent us the earth for our life, it is a great entail. It belongs as much to those who are to come after us, and whose names are already written in the book of creation, as to us; and we have no right, by anything that we do or neglect, to involve them in unnecessary penalties, or deprive them of benefits which it was in our power to bequeath. And this the more, because it is one of the appointed conditions of the labour of man that, in proportion to the time between the seed-sowing and the harvest, is the fulness of the fruit; and that generally, therefore, the farther off we place our aim, and the less we desire to be ourselves the witnesses of what we have laboured for, the more wide and rich will be the measure of our success.
